## 2015 SPRING TREE ORDER FORM

Now offering expanded selections of fruits, vegetables, hops and other products!

---

### Product Descriptions

Seedlings	(2-0) or (3-0) - Grown for two or three years in specialized seedling beds.
Transplants	(2-1) Grown for two years in a seedling bed, then transplanted and grown for another year, allowing for a more robust root system.
Extra Large	Usually grown for 2 years in seedling bed then transplanted and grown for another 2 to 3 years to allow a more expansive, branched stem and root system.
Plugs	Container grown seedlings. These are the only trees offered that are not bare root.
Conifers	A bush or tree (such as a pine) that produces cones and usually has leaves that are green all year.
Deciduous	A bush or tree that has leaves that fall off every year.
Pollinators	Some fruit trees and vegetables need pollinators to bear produce. Planting the appropriate species help ensure a great crop.
Tree/Shrub Packets	A mix of seedling trees and shrubs that are complimentary of each other.

—For more detailed descriptions of products offered please check out our 2015 product catalog at [www.sanilacCD.org](http://www.sanilacCD.org) or stop in at the office.

—Tree planter rental available (requires 40hp tractor with 3pt hitch) & Custom tree planting services offered. Contact the office for rental rates. Custom planting quotes available upon request.
