2017 SPRING TREE ORDER FORM

NEW PICKUP LOCATION ADDED FOR MACOMB COUNTY

Product Descriptions

- Seedlings** (2-0) or (3-0) - Grown for two or three years in specialized seedling beds.
- Transplants** (2-1) Grown for two years in a seedling bed, then transplanted and grown for another year, allowing for a more robust root system.
- Extra Large** Usually grown for 2 years in seedling bed then transplanted and grown for another 2 to 3 years to allow for a more expansive, branched stem and root system.
- Conifers** A bush or tree (such as a pine) that produces cones and usually has leaves that are green all year.
- Deciduous** A bush or tree that has leaves that fall off every year.
- Pollinators** Some fruit trees and vegetables need a pollination partner (different variety) to bear produce. Planting the appropriate species will help ensure a great crop.

—For more detailed descriptions of products offered please check out our 2017 product catalog at www.sanilacCD.org or stop in at the office.

—Tree planter rental available (requires 40 hp. tractor with 3 pt. hitch) Contact the office for rental rates .
