Earth Fair Registrations Opens Up

The St. Clair County Earth Fair is now accepting applications for vendors, school classroom field trips, event volunteers, and Green Guardian Award nominations. The 17th annual Earth Fair is set for Friday, April 26 from 9am – 4pm and Saturday, April 27 from 10am – 4pm at Goodells County Park. All applications are available online at www.EarthDayFair.com.

Anyone may apply to be an Earth Fair vendor that has an environmental product, message or service. The vendor application deadline is February 15.

St. Clair County teachers with a 3rd – 5th grade class are invited to register for a free field trip to Earth Fair. Earth Fair augments science lessons taught in the classroom and enables students to interact with ‘field experts’ in a hands-on learning environment. Field trip spaces are limited so early registration is encouraged.

The Green Guardian Award is Blue Water Area’s only environmental recognition program that acknowledges environmental superheroes from a business, school, group and individual that have demonstrated an initiative to enhance, preserve, and protect the Blue Water Area. Self-nomination is encouraged. There is no nomination deadline.

All registration forms are available online at www.EarthDayFair.com. Earth Fair, Michigan’s largest Earth Day event, is a two-day extravaganza that offers a unique opportunity for 70 exhibitors to connect with 10,000 visitors interested in healthy, sustainable and green living. For more information, contact Sheri Faust at (810) 987-5306 or earthfair@stclaircounty.org, or visit www.EarthDayFair.com.
